AI-POWERED NOTE-TAKING APP

Students, researchers, and professionals often struggle with managing large volumes of notes from classes, meetings, or research papers. Traditional note-taking apps lack AI-driven summarization and intelligent organization, making it difficult to quickly retrieve key points.

CHALLENGES TO NOTE TAKING

- LONG UNSTRUCTURED NOTES ARE HARD TO REVIEW QUICKLY
- MANUAL CATEGORIZATION IS TIME-CONSUMING, LEADING TO DISORGANIZED NOTES.
- NO REAL-TIME AI ASSISTANCE TO EXTRACT KEY INSIGHTS AND ACTION POINTS.

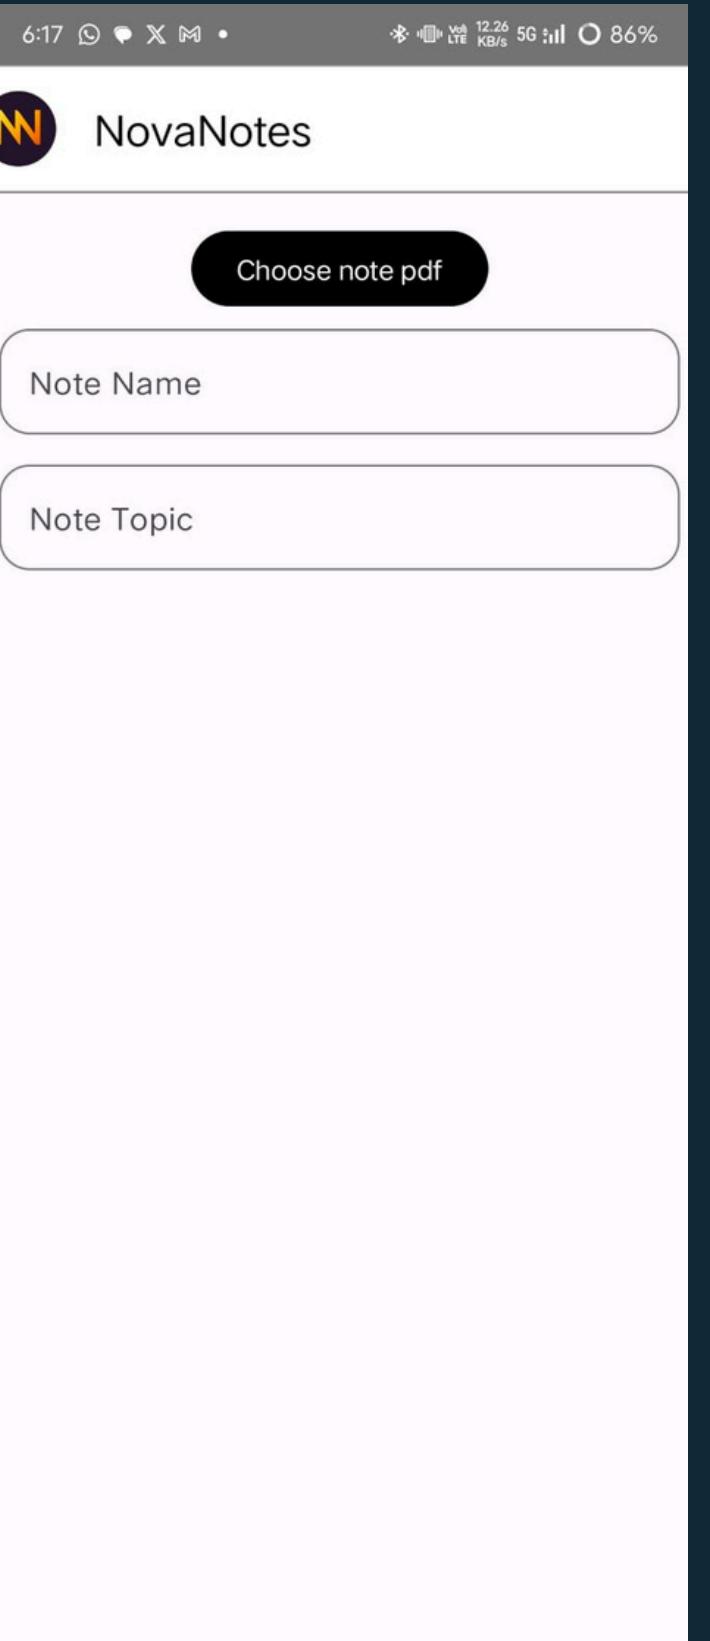

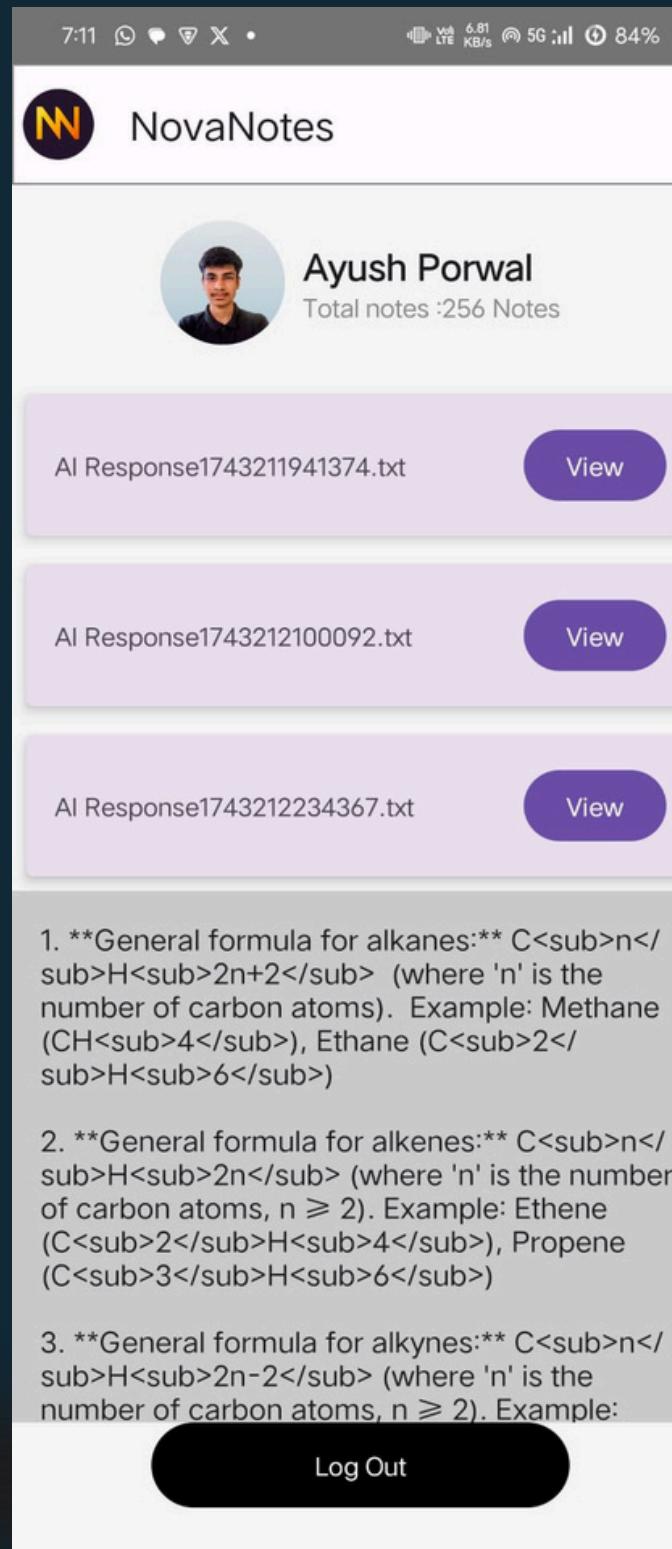

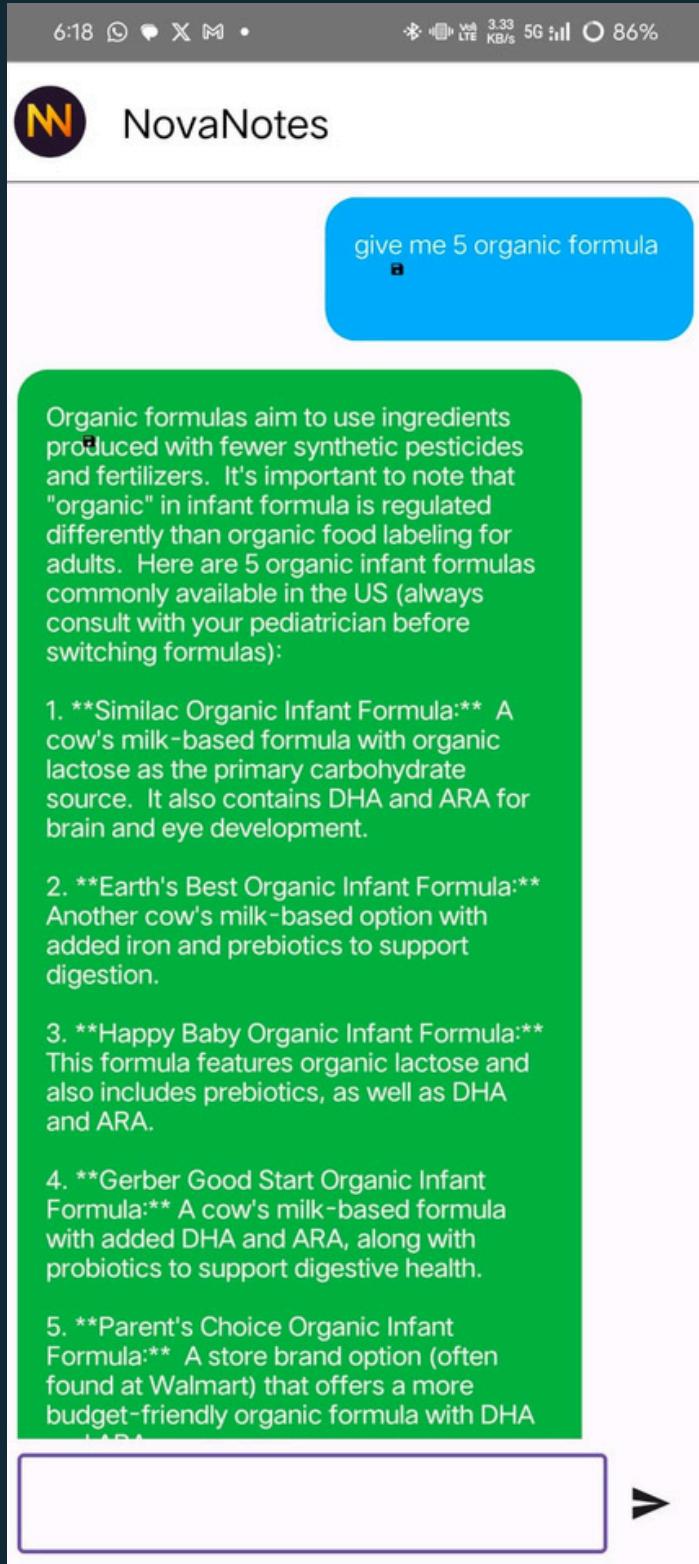

Smart Solutions

REAL TIME SYNC

- SYNCING FILES ACROSS MULTIPLE DEVICES AND USERS.
- UPDATING DASHBOARDS OR MONITORING NOTES DYNAMICALLY.
- AI EXTRACTS KEY POINTS FROM LONG TEXT AND CREATES CONCISE SUMMARIES.

Automated AI-CHAT BOAT

- Users can input small information, and the AI chatbot will structure it into well-organized notes.
- AI arranges data into bullet points, headings, or summaries for clarity.
- The chatbot understands the topic and enhances content with relevant details.
- User can save this notes and can access later .
